

INTERNATIONAL WORKSHOP ON ADOLESCENCE, SRHR & HIV

2024 2-4 OCTOBER 2024
NAIROBI, KENYA

INTERNATIONAL WORKSHOP ON
ADOLESCENCE, SRHR & HIV
2024

ABSTRACT SUBMISSION OPEN

Both research and lessons learned abstracts are welcome. Additionally, we strongly encourage the use person-first language in all abstracts. (View our [guidelines](#)).

Research Abstracts:

- Present the latest results from your study or research and discuss your findings with an expert audience.

“Lessons Learned” Abstracts:

- What worked and what did not work? Share your experiences and exchange ideas with a multidisciplinary audience.

For more information on the abstract submission guidelines, please visit our [website](#).

Abstracts can be submitted under the following topics:

- Adolescents and HIV: Treatment, Care, and Prevention
- Adolescents and Sexual and Reproductive Health
- Adolescents and Health Systems, Integration, and DSD
- Adolescents and STIs
- Adolescents General Health and Well-being, Including NCDs
- Digital Adolescents: Content, Platforms, mHealth
- Adolescents Policy, Legal Aspects, Consent, Rights, and Stigma
- Adolescent Populations with Unique Needs, Rights and Perspectives

SUBMIT YOUR ABSTRACT

Abstract presenters who qualify as Early-career investigators and/or delegates from Resource limited settings will benefit from a 100% discount to attend the workshop and present their valuable research!

Centre for Infectious Disease Research, Zambia

Juliet Iwelunmor

Washington University School of Medicine, United States

Hermes Gichane

National AIDS and STI Control Program (NAS COP), Kenya

Ruele Okeyo

Kenneth and Jacob's House, Kenya

ABOUT THE WORKSHOP

The 8th edition of **the International Workshop on Adolescence, SRHR, & HIV** is taking place on **2-4 October 2024** in **Nairobi, Kenya**.

Adolescence is a unique developmental stage full of transitions that offer both challenges and opportunities – including laying a foundation for good health. Every effort must be made to ensure access to HIV and SRHR services and retain adolescents in care to improve and maintain their health and well-being.

This workshop brings together young people from diverse geolocations and cultures, service providers, and researchers to bridge the gaps in the field.

REGISTRATION IS OPEN!

Abstract Submitters are encouraged to not register before the announcement of the abstract results.
