Rio de Janeiro,
Brazil

**Jorge Pinto,
MD, DSc**

School of Medicine, Federal
University of Minas Gerais,
Brazil

ABOUT THE WORKSHOP

The **18th International Workshop on Pediatrics & HIV** is scheduled to take place from 24 - 25 July 2026 in Rio de Janeiro, Brazil - just prior to the AIDS 2026 Conference! We are delighted to invite you to attend this highly anticipated 2-day workshop to connect with leading experts in the field.

The workshop brings together both early-career and established investigators across a wide range of disciplines to share experience across critical content areas, including HIV treatment and management, drug development, prevention of vertical transmission, co-infections and comorbidities, pediatric cure research, and implementation science.

What Your Peers Say:

“A global workshop for first-hand knowledge, sharing the latest information and best practices in pediatric HIV management. A forum for examining and sharing standardized global best practices in prevention, management, and possible cure for HIV among children and adolescents.”

“The very best place to stay up-to-date on science related to pediatric and adolescent HIV, and the top opportunity to connect with the international community of researchers and clinicians in pediatric HIV. Consistently the most valuable academic meeting I attend each year.”

Program Topics Include:

- Global Update on Pediatric HIV
- Update on Maternal and Pediatric HIV in Latin America
- Impact of Funding Cuts
- Prevention New Pediatric HIV Infections (& Improving Maternal Health)
- Pediatric and Adolescent Care and Treatment
- Comorbidities / Infections
- Long Acting Prevention and Treatment
- Mental Health
- Emerging Perinatal Infections

CALL FOR ABSTRACTS

Abstract Submission for the **18th International Workshop on Pediatrics & HIV** is now open!

Submit your abstract now and share your research with key experts.

**Abstract Submission Deadline:
Friday, 17 April 2026**

[https://virology.eventsair.com/
pediatrics-2026/abstract](https://virology.eventsair.com/pediatrics-2026/abstract)

Abstracts can be submitted under one of the following topics, and the use of **person-first language** is strongly encouraged:

- Antiretroviral Treatment in Infants, Children, and Adolescents (Including ARV Switch, Toxicity, Drug Resistance)
- Clinical Management of Infants, Children, and Pregnant/Breastfeeding Persons (e.g., Monitoring, Differentiated Care)
- Coinfections/Complications in Infants, Children, Adolescents, and Pregnant/Breastfeeding Persons with HIV (e.g TB, CMV, RSV, COVID)
- Clinical Issues in HIV Negative Infants Exposed to HIV
- Prevention of Vertical HIV Transmission – Interventions and Implementation
- HIV Prevention & Treatment in Pregnant and Breastfeeding Persons
- Clinical Management Issues Specific to Adolescents (e.g. Transition to Adult Care)
- HIV (and STI) Prevention in Adolescents
- Pediatric HIV Case Finding Including Early Infant Diagnosis

Co-submission of abstracts with the 26th International AIDS Conference is allowed.

You can submit your abstract(s) to both Pediatrics & HIV 2026 and AIDS 2026 as long as you comply with the AIDS 2026 embargo policy. The co-submission agreement does not apply to AIDS 2026 late-breaker abstracts.
